

The School for Transdisciplinary Studies (STS) fosters inter- and transdisciplinary education and teaching. STS serves as a hub for courses addressing students of all faculties and supports providers / initiatives in the development and implementation of these courses. Thereby, STS increases the visibility of inter- and transdisciplinarity at UZH.

We provide
inter- and transdisciplinary courses on future-oriented, cross-cutting topics and future skills

We offer
advice and expertise on the development and implementation of inter- and transdisciplinary courses
—
space for experimentation and innovation in education and teaching

We support
the promotion of STS courses with a coordinated communication strategy
—
community-building on inter- and transdisciplinary teaching

We connect
faculties, providers / initiatives, and students

We coordinate
processes between faculties and providers / initiatives
—
semester planning and study administration
—
legal processes
—
quality assurance and course evaluations

Welcome at STS!
